

FUEL TANK INSTALLATION PERMIT APPLICATION

TOWN OF TUXEDO

1 Temple Drive, Tuxedo, New York 10987
(845) 351-4411 Ext. 6

FOR OFFICE USE ONLY

Received: _____

Examined: _____

Approval Date: _____

Disapproved for the following reason: _____

INSTRUCTIONS

SUBMIT, where construction is exterior to existing structures, two copies of a rough plot plan accurately showing any critical dimensions.

SUBMIT, where applicable, two (2) copies of construction drawings, a written description of work to be performed including location, if any oil will be transferred and by what means, and information on the new tank/accessories to be installed including piping, vent lines. Tank gauge, overspill protector alarm, and tiger loop (for air elimination, oil preheating, reduction of nozzle cooking problems, and the reduction of high-volume issue in the oil line). Application must be accompanied by proof of liability and workman's comp insurance.

THE FOLLOWING SHOULD BE TYPED OR PRINTED LEGIBLY IN INK

(Signature of Applicant)

Notary Public, _____ County

The Building Department assumes no responsibility for the sufficiency of construction. A Certificate of Compliance will be forthcoming upon final inspection.

PLEASE CALL FOR THE REQUIRED INSPECTIONS:

The Building Inspector must inspect the initial grading as well as the tank placement. We require a final inspection and a certification of electrical inspection (if electric pump is installed) prior to the issuance of a Certificate of Compliance. The tank should not be used until such time as a Certificate has been issued.

Town of Tuxedo Policy Statement

The Town of Tuxedo Building Inspector shall not take a conclusive action relative to the granting of an approval, permit or other similar official acceptance when the applicant, lessee, lessor, property owner and/or property location has an outstanding violation of code pending, monies and/or fees outstanding or unsatisfied conditions of approval against said applicant or property. The Building Inspector may conduct such preliminary procedures that it may deem necessary or appropriate to assure conformance with code requirements and/or law with the understanding that final approval and/or acceptance will not be taken until such time as any and all violations outstanding monies and fees and conditions are satisfied.

To Applicant:

A Certificate of Occupancy (C/O) or Certificate of Compliance (C/C) must be issued for the work covered by this permit. All required inspections must be made in order for the appropriate Certificate to be issued and it is your responsibility to make sure that all inspections are made.

We have experienced many problems with the building permits having expired (the contractor paid and gone) and the work completed, but no C/O or C/C issued. A lack of a certificate constitutes a violation and will cause you serious problems when you decide to sell or refinance your home.

The Building Permit is good for a maximum of 18 months.

Please understand, a Certificate of Occupancy or Certificate of Compliance MUST be issued BEFORE you use the area covered by the permit.

Please sign below acknowledging that you have read and understand the above.

Instructions for Fuel Tank Installation / Removal

Removal – Scope of work to include:

- Location
- Process for removal
- Content destination in tank for legal removal
- Procedure if leak found or soil contaminated
- Acknowledgement that the Tuxedo Building Inspector will be notified for visual inspection of tank and hole before removal or placement of fill
- Procedure for soil sample analysis for contamination if required by the Building Inspector

Installation – Scope of work to include:

- Location
- Tank and accessories to be installed. Including but not limited to piping, vent lines, tank gauge, overspill protection alarm, and tiger loop (for air elimination, oil preheating, reduction of nozzle coking problems and the reduction of high-volume issues in the oil line)
- If any oil will be transferred

Statement: All work will comply with the NYS Gasoline & Fuel Oil Tank Installation Code and NYDOS Mechanical Code, Chapter 13.
